

Summary Plan Information for Employers and Employee Representatives of the AFTRA Retirement Fund

This notice provides summary plan information about the AFTRA Retirement Fund (the Fund) (Employer Identification Number 13-6414972; Plan Number 001), as required under section 104(d) of the Employee Retirement Income Security Act of 1974 (ERISA).

Unless otherwise noted, the information provided relates to the plan year that began December 1, 2017 and ended November 30, 2018 (referred to herein as the 2017 Plan Year).

Contributions

The Fund contributions are paid by employers on behalf of employees performing covered work under collective bargaining agreements (CBAs) with the Screen Actors Guild-American Federation of Television and Radio Artists (SAG-AFTRA) that require the payment of contributions to the Fund.

Contribution amounts are based upon the rates outlined in the corresponding CBA under which covered work was performed. The contribution rates in effect during the 2017 Plan Year ranged from 4% to 18.5% of the performer earnings to which they apply. Contribution rates may be expressed as a total rate for contributions to both the Fund and the AFTRA Health Fund (effective January 1, 2017, the SAG-AFTRA Health Plan), in which case there is a formula for allocating contributions as between the two.

There were no (0) participants in the Fund on whose behalf no contributions were made by an employer as an employer on the participant's behalf for the 2017 Plan Year. For the prior two plan years, there were no (0) such participants.

Employers

A total of 1,763 employers were obligated to contribute to the Fund during the 2017 Plan Year. The following employers contributed more than 5% of the Fund's total contributions for the 2017 Plan Year: CBS

Benefit formulas

The formulas used to calculate participants' pension benefits under the Fund's plan of benefits (the Plan) are listed below.

- *For covered work prior to May 1, 2009* – Covered earnings for each Base Year in which a performer earned a Pension Credit ¹multiplied by the Retirement Plan's benefit accrual rate².

(Over)

¹ If a performer meets a minimum covered earnings threshold in a "Base Year" (December 1 - November 30), that performer earns a Pension Credit for that year. Performers who accumulate at least five Pension Credits, if at least one of those years began on or after December 1, 1989, become vested in a Retirement Plan pension benefit. For more information, refer to pages 13-15 of the 2019 Retirement Plan Summary Plan Description, which is available at www.aftraretirement.org ("Retirement Fund" | "Retirement Plan SPD").

² For a summary of historical benefit accrual rates, refer to page 23 of the 2019 Retirement Plan Summary Plan Description, which is available at www.aftraretirement.org ("Retirement Fund" | "Retirement Plan SPD").

- *For covered work on or after May 1, 2009* – The total amount of employer pensionable³ contributions credited to both the Fund and the AFTRA Health Fund (or, after 1/1/17, the SAG-AFTRA Health Plan) on a performer’s behalf in each Base Year in which such performer earned a Pension Credit multiplied by a contribution-based accrual rate⁴.

Retirement Fund status and additional information

The Fund was not in critical or endangered status for the 2017 Plan Year. The Fund did not merge with another plan and there was no transfer of assets or liabilities to or from any other plan during the 2017 Plan Year.

The Fund is aware of no employers that withdrew from the Fund during the preceding Plan Year, which ended November 30, 2017 (the 2016 Plan Year).

The Fund applied for and received an amortization extension under Section 304(d) of ERISA for the plan year beginning December 1, 2008 (the 2008 Plan Year). However, as required under Section 412 (c) (7), the extensions of amortization periods were disregarded effective on December 1, 2013 because of past service benefit increases that became effective on that date. The Fund did not employ the “shortfall funding method” described in Section 305 of ERISA for the 2017 Plan Year.

⁴ There is an adjustment to the formula where an employer only contributes to the Retirement Fund and not the Health Fund.
